**About:**

This directory is a work in progress as, at time of creation, the "Playstation Vita" and its' console counterpart "Playstation TV" are a current video game hardware platform with systems and new games still being produced. If it follows true with Sony's ten year gaming platform policy, then the Vita's life cycle is not set to end until the year 2022, barring the unforeseen.

As indicated by the title, this list is comprised only of Region 1, the territorial region consisting primarily of North America, released Playstation Vita games. No releases from other regions are, nor will be, provided.

The purpose of this game directory is three fold. First to serve as a record of all games to have received an official physical release of some form in the region. Secondly, to arm my fellow collectors with information that may aid them in building and organizing their own collections. And third, and lastly, to aid those residing outside of Region 1 who may be interested in importing a game.

---

**Legend:**

Listings in this directory are organized in the manner as shown in the following example.:

```

-----
Title                                     || Release Date ||
|| Rating || Region Code || Barcode || Sony Product ID || Special Note Area ||
|| Additional Special Note Area          ||
-----

```

Top row begins with the title name and ends with the release date field. Second row first column is the ESRB rating. Second column is region code as specified on the package, if no region code is specified then the letters "NS" will appear to represent "N"ot "S"pecified", meaning the region coding has not been declared. Third column is the "Barcode" which is used to identify the product in retailer databases. Fourth column is the "Sony Product ID" as found on the spine of the game case, and sometimes on the game card itself. And lastly, the fifth column is reserved as a "Special Note" area which will be used as needed to provide you with pertinent information concerning a title.

Many of the special editions of games lack a Barcode and do not have a unique Sony Product ID. This is not an error, rather, such editions were sold with limited availability exclusively through the internet typically by the video game's publisher.

 || M || All || 819976022110 || PCSE-01297 || Limited Physical Edition ||  
 || Sold exclusively online through the Limited Run Games webstore. ||  
 || \* Initially offered as one of many games possible to receive at random  
 || when ordering a Vita Blind Box during LRG's New Years' Day 2020 Sale. ||

Penny Punching Princess || 3/19/2019 ||  
 || T || All || 810023032243 || PCSE-01321 || ||  
 || T || All || || || Collector's Box Bundle ||  
 || A Limited Edition was initially planned for this release, then cancelled,  
 || and then on the actual launch date a Collector's Box bundle was offered  
 || exclusively on the NISA webstore. while the game does fit inside of the  
 || Collector's Box, it was not sold pre-packaged in said box. The Collector's  
 || box and limited edition contents were rather leftovers from the 2018 Switch  
 || release of the same game title. This was still rather aggravating for Vita ||

|| collector's who had pre-ordered the standard edition after the Limited ||  
|| Edition was confirmed to have been cancelled. ||

T	All			Collector's Box Bundle
A Limited Edition was initially planned for this release, then cancelled, and then on the actual launch date a Collector's Box bundle was offered				

exclusively on the NISA webstore. while the game does fit inside of the Collector's Box, it was not sold pre-packaged in said box. The Collector's box and limited edition contents were rather leftovers from the 2018 Switch release of the same game title. This was still rather aggravating for Vita collector's who had pre-ordered the standard edition after the Limited Edition was confirmed to have been cancelled.
